RECONSTRUCTED FUTURE/DESCENDANT GENEALOGY - Asım Orhan Barut

Students and academic descendants (Future genealogy)

Generated from frozen E2K v75 Module G / Master. Projection of Future_Genealogy, Direct_Students, Lineage_Paths and the accepted metrics; not a new source of truth.

Direct recorded students (G+1) include master's and doctoral supervision as separate categories and may include explicitly qualified scientific mentorship. Later generations follow recorded doctoral links. Numbering follows the frozen Module G output. An alternative advisor does not create a second person.

Thesis repositories: a missing search match or unexamined full text is not proof a thesis never existed. YÖK records are identified by Tez No when recorded. Origin-root uncertainty is not overridden by the downstream chain.

Lineage profile

Recorded direct students/mentees (G+1)	6
Persons in recorded descent tree	102
Deepest generation	G+5
V0 — Primary doctoral-only	51 doctoral descendants; 5 origin-level counted roots; h=2, g=4; G+1: 5; G+2: 23; G+3: 13; G+4: 8; G+5: 2
V1 — Record-confirmed doctoral-only	50 doctoral descendants; 4 origin-level counted roots; h=2, g=4; G+1: 4; G+2: 23; G+3: 13; G+4: 8; G+5: 2
V2 — First adviser only	47 doctoral descendants; 5 origin-level counted roots; h=2, g=4; G+1: 5; G+2: 20; G+3: 13; G+4: 8; G+5: 1
V3 — Inclusive/extended mentorship	51 doctoral descendants; 5 origin-level counted roots; h=2, g=4; G+1: 5; G+2: 23; G+3: 13; G+4: 8; G+5: 2

V0/V1/V2 count accepted doctoral supervision paths at different evidence/adviser thresholds. V3 can include master's or contextual root pathways: its origin-level count must not be read as a count of formal doctoral students.

Direct students and their descendants

1 K. Gediz Akdeniz — doctoral; 1971; International Centre for Theoretical Physics (ICTP), Trieste

LINEAGE G+1; adviser: Asım Orhan Barut (not_confirmed_official_doctoral_supervision); relation: scientific_mentorship; basis: formal

REPOSITORY YÖK: not_applicable (degree outside Türkiye)

EVIDENCE Master corpus only; unresolved_supervision

QUALIFICATION: not counted in the Origin's primary doctoral metrics; root/adviser status is not established as formal doctoral supervision.

NOTE: | Run2: root excluded from Origin doctoral lineage pending source resolution; independently recorded descendants retained.

1.1 H. Handan Gürbüz — doctoral; 1987; İstanbul Üniversitesi

THESIS Ergimiş alkali-metal florür tuzlarının yapısal özellikleri

LINEAGE G+2; adviser: K. Gediz Akdeniz (advisor); relation: formal_phd; basis: formal

REPOSITORY YÖK: record_found; Tez No 1936

EVIDENCE thesis repository record; accepted

QUALIFICATION: not counted in the Origin's primary doctoral metrics; root/adviser status is not established as formal doctoral supervision.

NOTE: Role as primary advisor rests on the row being in Akdeniz's own thesis table (no caption, no explicit 'Danışman' marker on plain rows). Institution is not printed in the table. English title as printed: Structural Features of Molten Alkali-Metal Flor

1.2 Adem Dalgıç — doctoral; 1988; Uludağ Üniversitesi

THESIS Eğrilik ve burulmaya sahip bir geometride spinor alanların davranışları

LINEAGE G+2; adviser: K. Gediz Akdeniz (advisor); relation: formal_phd; basis: formal

REPOSITORY YÖK: record_found; Tez No 38978

EVIDENCE thesis repository record; accepted

QUALIFICATION: not counted in the Origin's primary doctoral metrics; root/adviser status is not established as formal doctoral supervision.

NOTE: Role as primary advisor rests on the row being in Akdeniz's own thesis table (no caption, no explicit 'Danışman' marker on plain rows). Institution is not printed in the table. English title as printed: The Behaviors of Spinor Fields at a Geometry wh

1.3 Cengiz Dane — doctoral; 1988; Trakya Üniversitesi

THESIS Liouville terimli konformal bir model geometrik yapısı

LINEAGE G+2; adviser: K. Gediz Akdeniz (advisor); relation: formal_phd; basis: formal

REPOSITORY YÖK: record_found; Tez No 38977

EVIDENCE thesis repository record; accepted

QUALIFICATION: not counted in the Origin's primary doctoral metrics; root/adviser status is not established as formal doctoral supervision.

NOTE: Role as primary advisor rests on the row being in Akdeniz's own thesis table (no caption, no explicit 'Danışman' marker on plain rows). Institution is not printed in the table. English title as printed: A Conformal Model with Liouville Term Geometric

1.3.1 Yıldırım Bayazıt — doctoral; 2001; Trakya Üniversitesi

THESIS SO (P,Q) grubu ve 1 boyutlu integrallenebilir kuantum sistemleri

LINEAGE G+3; adviser: Cengiz Dane (advisor); relation: formal_phd; basis: formal

REPOSITORY YÖK: record_found; Tez No 105968

EVIDENCE thesis repository record; accepted

QUALIFICATION: not counted in the Origin's primary doctoral metrics; root/adviser status is not established as formal doctoral supervision.

NOTE: | Run2: root excluded from Origin doctoral lineage pending source resolution; independently recorded descendants retained.

1.3.2 Edibe Palabıyık — doctoral; 2003; Trakya Üniversitesi

THESIS SO(3,2) grubu ve integrallenebilir sistemler

LINEAGE G+3; adviser: Cengiz Dane (advisor); relation: formal_phd; basis: formal

REPOSITORY YÖK: record_found; Tez No 136516
