RECONSTRUCTED PAST GENEALOGY - Dilhan Eryurt

Doctoral supervisors and their academic ancestors (Past genealogy)

Generated from frozen E2K v75 Master / Module G; this is a registry-bounded projection, not a new source of truth. Registry wording and alternate advising links are retained.

Sources differ on the immediate doctoral adviser. Registry sources MGP/AstroGen identify Tevfik Okyay Kabakçıoğlu; E. A. Kreiken is retained as a scientific/institutional mentor in the corpus, not silently substituted as the formal adviser.

Each recorded person is listed once per generation when a primary row is available. Additional supervision links are shown in the advisor-of field or as alternative-path records. A line ending in the registry does not prove that no other adviser existed.
